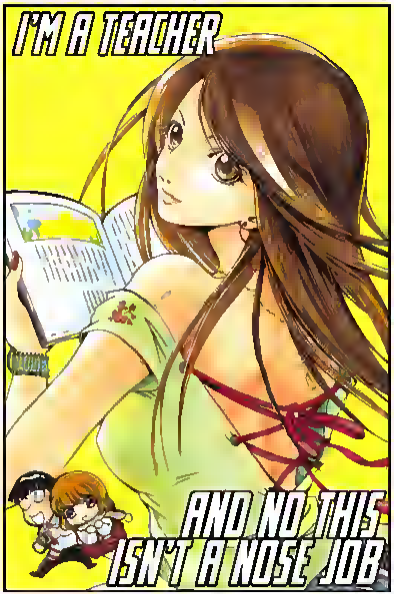
I once again selfishly ask that this be left in any secondary releases
(Last one, I promise)

Fundraiser stuff~

Those of you that follow the other SC projects have already seen a note like this one telling you that we're having something of an assistance drive at SnoopyCool.com, and I promise this is the last notice I'm posting about it. After this week, this will have been in most of what we bring to you guys, so I'm satisfied with the saturation level.

For those people who missed it, I'm trying to get SC more financially independant (from me) and have the site pay for the manga that is purchased to scan in for the fans to eventually read. The costs are explained in great detail on the main site (the site would be **http://www.snoopycool.com**), but basically manga magazines and volumes average out to about $150 every month of out of pocket costs for the staff, which I would very much like to be able to reimburse through the site's paypal account. Donations of different dollar amounts get some gifts from me like pencil board, key chains, figurines and a lot of other random stuff that comes packaged in with all of the magazines that we buy to scan in for you. If you're interested in helping out or just want to see what it is that costs so much money, then do please drop by and take a look. I also have up some advertising banners showcasing some of our possible future projects if you want to take a gander at those.

-Snoopy



This is a shounen teacher manga, that I've been in love with for well over a year now, actually- why no one has translated it yet, I'll never know.
